-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/14/07 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 3, 6, 11, 34, 36, and 42 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The applicants amended the claims to recite magnetic substance enclosed in an elastic covering material. As the result the instant scope of the claims 3, 6, 11, 34, 36, and 42 is not supported by the original disclosure. See parts [0073]-[0076].

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-3, 5-14, 32-34 and 36-46 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 94/04313.

WO 94/04313 teaches an apparatus as claimed. The apparatus comprises a cleaning medium as claimed and devices as claimed. The apparatus is fully capable to perform all functions recited by the claims. See entire document, especially Figures 1, 3, 5 and description of cleaning mediums at pages 10-14.

The limitation of elastic covering material is disclosed at least at page 13, lines 24-32, page 14, line 19 – page 15.

6. Claims 1-3, 5-14, 32-34 and 36-46 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 82/0101844.

WO 82/0101844 teaches an apparatus as claimed. The apparatus comprises a cleaning medium as claimed and devices as claimed. See entire document, especially page 3, line 12 – page 8, line 13, page 9, line 12 – page 19 – line 6.

The limitation of elastic covering material is disclosed at least at page 13, lines 14-20.

***Response to Arguments***

7. Applicant's arguments filed 5/14/07 and 6/13/07 have been fully considered but they are not persuasive.

The applicants allege that the applied documents do not teach elastic covering material.

This is not persuasive because in contrast to the applicants statements the elastic fluid of WO 94/04313 and the plastic material of WO 82/0101844 are readable on the claimed elastic covering material. The claims are not limited to the embodiment presented on Fig. 5 and the related description. The structure of the apparatuses disclosed by WO 94/04313 and WO 82/0101844 is the same as claimed.

The applicants arguments alleging benefits achieved by the instant invention and alleging differences in the use and the technologies of the prior art compare to the instant invention are not persuasive because the structural limitations of the claimed apparatus are met by the disclosure of the prior art.

It is also noted that the applicants argue that the present claims require "a structure in which a cleaning medium is sealed in a flexible covering material". The examiner would like to note that the claims are not limited to such.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Markoff whose telephone number is 571-272-1304. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr can be reached on 571-272-1414. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
